

# iPRES 2019

EYE ON THE HORIZON | 16TH TO 20TH SEPTEMBER 2019

## 16TH INTERNATIONAL CONFERENCE ON DIGITAL PRESERVATION

## AMSTERDAM THE NETHERLANDS

**iPRES** is the premier and longest-running conference series on digital preservation. Since 2004, there have been annual iPRES conferences in rotation around the globe on four continents so far. iPRES brings together 300-400 scientists, students, researchers, archivists, librarians, providers, and other experts to share recent developments, innovative projects and to collaboratively solve problems. The 16th edition of this international conference will be held in Amsterdam, the Netherlands.

### HOST

iPRES 2019 is hosted by the Dutch Digital Heritage Network. This network of Dutch heritage organisations focuses on developing a system of nationwide facilities and services to improve the visibility, usability, and sustainability of digital heritage. The network is open to all institutions and organisations in the digital heritage field, with the large national institutions as the main drivers of the network.

### VENUE

The conference will take place 16th to 20th September 2019 at the EYE Film Museum. This venue is located in a striking building on the northern bank of Amsterdam's IJ river. The institute is renowned the world over on account of its knowledge and expertise in the area of film restoration and research.

### CONFERENCE THEME

Typically Dutch are the horizons, so what better theme for the conference than 'Eye on the Horizon'? This refers not only to the famous Dutch horizons but also to looking forward, to the digital future, and of course to the venue of the conference: the EYE Film Museum.
